Please refer to www.mycg.com.sg/nus for details of coverage.

If you will be arriving in Singapore earlier than the start dates mentioned in the table above, you are strongly recommended to have personal health/travel insurance that covers treatment of Covid-19 in Singapore.

2 I am an international student. I will be taking the e-learning option and completing the semester from abroad. Am I covered while outside of Singapore?

Yes, you will be covered subject to policy terms and conditions.

Please note:

- You are covered up to 185 consecutive days. If you are out of Singapore for more than 185 consecutive days, the coverage will stop.
- The NUS Student Insurance is customised mainly for cost of treatment in Singapore. Thus, for SP and GHS, coverage will be subject to B1 level charges for equivalent treatment in NUH or the overseas cost whichever is lower.
- The insurance covers only emergency treatment while overseas. It does not cover intentionally booked treatment outside of the international students' home country.
- The insurance may not be sufficient to cover overseas medical cost. Students should re-activate their insurance in their home country or purchase travel insurance.
